COUNSELING SERVICES OFFICE

Parental Consent and Authorization

The first year of college can be very challenging and stressful for students. The Hastings College Counseling Services Office provides free and confidential counseling for enrolled students. Services such as consultation, continuity of care, crisis management and referrals are also provided as needed. Many students benefit from talking to a counselor to address adjustment issues such as, but not limited to, homesickness, academic difficulties, depressed mood, anxiety and stress.

However, in the State of Nebraska, the age of majority is not reached until the age of 19. If your son/daughter is younger than 19 years of age, when entering college this fall, we will need your consent to treat and your authorization to exchange information with appropriate referral agencies (if applicable). To prepare for the possibility that your son/daughter may want to seek counseling services, please fill out the information below and provide the required signatures. Consent is not legally required for minors who seek treatment for emergencies.

This consent will be valid until the minor student reaches the age of 19, but can be revoked at any time by written notification.

Student's Name _____ DOB _____

Please print
